

## APPENDIX 2

### WCF TESTING POOLS – Pyramid Testing Model

#### 1. Testing Pools

The Pyramid Testing Model consists of two tiers of Testing pools:

- 1) The top tier (**WCF Registered Testing Pool (RTP)**) includes *Athletes* from whom **full whereabouts** information is required. (See *Details of Whereabouts Requirements* below and Article 5.5 of these *Anti-Doping Rules*.)
- 2) The below tier (**WCF Team Testing Pool (TTP)**) includes *Athletes* from whom **team whereabouts** information is required. (See *Details of Whereabouts Requirements* below and Article 5.5 of these *Anti-Doping Rules*.)

#### 2. Details of Whereabouts Requirements:

	WCF Registered Testing Pool (WCF RTP)	WCF Team Testing Pool (WCF TTP)
<b>Mailing Address</b>	√	√
<b>Email address</b>	√	√
<b>Overnight accommodation</b>	√	√
<b>Competitions</b>	√	√
<b>Regular Activities</b>	Training / Work / Other	Team Training information
<b>Travelling Schedules</b>	√	√
<b>60-Minute Time Slot</b>	√	×
<b>Consequences</b>	Filing Failure/ Missed Test	Move to RTP/reprimand/fine
<b>Deadline to submit Q1</b>	15 December	15 December
<b>Deadline to submit Q2</b>	15 March	15 March
<b>Deadline to submit Q3</b>	15 June	15 June
<b>Deadline to submit Q4</b>	15 September	15 September

### 3. Submission of Whereabouts Information

#### FULL WHEREABOUTS - RTP

*Full whereabouts* can be submitted individually by the *Athlete* or on their behalf by a third party (team member/coach/agent etc.). Despite delegating some or all whereabouts filings to a third party, **the Athlete remains entirely responsible for any failure to comply with the requirements of the WCF Anti-Doping Rules.**

***Whereabouts information must be submitted through ADAMS only.***

#### TEAM WHEREABOUTS - TTP

*Team whereabouts* can be submitted individually by the *Athlete* or on their behalf by a third party (*Member Association/team member/coach/agent* etc.). Despite delegating some or all whereabouts filings to a third party, **the Athlete remains entirely responsible for any failure to comply with the requirements of the WCF Anti-Doping Rules.**

***Team whereabouts information must be submitted through ADAMS only.***

### 4. Consequences for Failure to Comply with Whereabouts Requirements

If an *Athlete* in the **WCF Registered Testing Pool (RTP)** fails to comply with the whereabouts requirements applicable to him/her, then any combination of three Missed Tests and/or Filing Failures, as defined in the *International Standard for Testing and Investigations*, within a twelve-month period will amount to an anti-doping rule violation under Article 2.4 and respective *Consequences* as defined in these Anti-Doping Rules.

If an *Athlete* in the **WCF Team Testing Pool (TTP)** fails to comply with the whereabouts requirements applicable to him/her, i.e. not filing whereabouts by the due date, insufficient whereabouts to enable *Testing* to take place or unable to be located for *Testing* based on the whereabouts information submitted, then the *Athlete* will be elevated to the RTP and/or other consequences e.g. written reprimands/warnings or financial sanctions may be applied by WCF.

If the team whereabouts information, as provided above, isn't sufficient to conduct the *Testing* of such *Athletes* effectively and on a No Advance Notice *Testing* basis, and instead to conduct that *Testing*, it is necessary to require the *Athlete(s)* to comply with the *Code* Article 2.4 Whereabouts Requirements, then the *Athlete(s)* will be elevated to the RTP.
