## APPLICATION FORM

The purpose of the Application Form is to provide the World Curling Federation (WCF) with key information about your facility's operations, infrastructure, and aspirations. This information will assist the WCF in evaluating your facility's readiness to participate in the Global Facilities Certification Programme (GFCP).

The questionnaire is designed to gather details about your facility's current capabilities and its alignment with the certification programme's goals of operational excellence, sustainability, and inclusivity. Responses provided in this form will serve as the foundation for further discussions and evaluations, including any potential site inspections or additional document submissions.
