Brush Policy

The detailed Statement is a separate document and can be found on the World Curling Website.

Some clarifications on top of the brush policy:

- With the exception of the tape to mark each players brush for identification (close to the brush head), no tape or stickers are allowed on brushes.
- Sweeping with only the side or edge of the brush head in contact with the ice is not permitted.
- A delivery brush which becomes damaged due to brush abuse cannot be replaced during the current game.

Brush inspection

The brush policy states, that the umpires will conduct random checks during all competitions and that World Curling reserves the right to undertake testing of approved equipment collected at World Curling Championships and Events. The Chief Umpire may collect approved equipment from the participants, and any equipment collected for testing becomes the property of World Curling.

Please note, that the foam is considered a part of the brush-head. This includes brushes where the fabric can be replaced separately. In the collection of equipment for testing, the Chief Umpire will always collect the foam and the fabric when they are not attached in the manufacturing process. It is each team's responsibility to make sure they do have spare parts with them during all World Curling competitions.

Alternate & Coaches

Wheelchair Curling Policy

This document outlines supplementary policies for wheelchair curling as mentioned in the "Rules of Curling". It is the responsibility of each player and coach to ensure that these policies are met.

Delivery Sticks

World Curling will not conduct a certification process nor an official approval process for delivery sticks in wheelchair curling. World Curling will offer annual consultation services to provide advice on a product's conformation to the standards. A sample product needs to be received by World Curling prior to May 31st. Feedback and advice will be completed by 31 July. A fee may apply.

Delivery Stick Standards

The delivery stick shall not convey any mechanical advantage other than acting as an extension of the arm/hand. Mechanical advantage is defined as the amplification of a force. Examples that can exert such a force are, but not limited to springs and pistons.

This diagram describes the terminology of a delivery stick.

The delivery stick must also abide by the following:

- a) It cannot contain any part that automatically aims or assists in aiming the stone.
- b) It cannot contain any part that adjusts the weight/speed of the stone.
- c) The overall length of the delivery stick must be no greater than 2.45m/8.04 feet. This measurement is taken when the stick is lying on a horizontal plane. It is defined as the distance from the furthest point on the handle to the outstretched end of the delivery head.
- d) The tube must be hollow and static in length throughout the delivery. However, adjustment of tube length is allowed between shots.
- e) Customisation of the handle, tube and delivery head are allowed if they fall within the "Wheelchair Curling Policy". Examples include tape, velcro and silicon.
- f) If the delivery stick conforms to the standards given it does not matter where the force is applied to the stone handle.

- g) Throughout the delivery movement a fixed connection must occur between the athlete through the handle, tube, and delivery head.

Please further note from the "Rules of Curling":

Rule 11 (c): "Teams must not use electronic communication equipment, or any device to modify the voice during a game. Except for stopwatches that are limited to providing 'time' data only, the use of electronic devices during the games, which provide information to players on the field of play, are forbidden".

Delivery Stick Penalties

The penalty for using a delivery stick in World Curling competition games or practices, that does not conform to standards for Competition Equipment established by World Curling:

- a) First team offence during a competition: the player is disqualified from the competition and the team forfeits the game.
- b) Second team offence during a competition: the team is disqualified from the competition and all players are not permitted to play in World Curling competitions for a 12-month period (365 days).

All teams will be allowed a maximum of four delivery sticks (two in Wheelchair Mixed Doubles) within the field of play and any player can use any of those sticks at any time. No delivery stick can be changed during a game, or during / after a pre-game practice, unless the Chief Umpire grants special permission. Permission will be granted if the tube, handle, or delivery head are damaged in an accidental manner. Penalty: If a change is made without permission, the team will forfeit the game.

If a team brings in an alternate a player during a game, that team may replace a maximum of one delivery stick (not applicable for Wheelchair Mixed Doubles).

Only a brush can be used as the target device. The use of delivery sticks or any other devices for this purpose is not permitted.

Accreditation at World Curling Events

Regular teams = 5 players, 1 coach and 2 other team officials (e. g. - team leader, translator, etc.) Mixed Doubles teams = 2 players (1 male & 1 female), 1 coach and 1 other team official

Mixed teams = 4 players (2 male & 2 female), 1 coach and 1 other team official

At all World Curling competitions, each team must have at least one person registered as a team member who is at least 18 years of age by the end of the 30th day of June before the competition is to take place.

Please note: At World Curling Junior events, when teams are registering two coaches/team officials, one of them has to be of the gender of the athletes. For Junior Mixed Doubles that means one coach/team official has to be male and one has to be female.

All team members must collect their Accreditation Passes in person (with a photo ID document) prior to the end of pre-event practice day. Any person who has not collected their Accreditation Pass by this time will not be accredited for the event, along with being removed from the original line up as shown in rule c2(k).

Privileges granted for each accreditation category include:

Players (5) (2 for Mixed Doubles) (4 for Regular Mixed)

- free entry to the venue for all games (when not playing, a seat in the team area)
- possibility to have accommodation in the team hotel(s)
- access to the Team Official's Field of Play, when in the alternate position and the team is playing
- access to the players' lounge and other 'team' areas (medical / massage / interview area, etc.)
- may use the event's team transportation system (could be a team car / van or shuttle system)
- ticket to the Welcome Reception and Farewell Banquet, for a fee
- medal and other appropriate award items

Team Coach (1)

- same as the players

Second Team Official (1)

- free entry to the venue for all games
- access to the Team Official's Field of Play when their team is playing and into the team area when not playing
- Organising Committee has no obligation for transportation, only if space is available; also, no guarantee of accommodation in the team hotel, only if rooms are available
- ticket to the Welcome Reception and Farewell Banquet, for a fee

Third Team Official (1) for Regular 5-Player Teams

- free entry to the venue for all games
- access to team areas
- Organising Committee has no obligation for transportation, only if space is available; also, no guarantee of accommodation in the team hotel, only if rooms are available
- ticket to the Welcome Reception and Farewell Banquet, for a fee

Definition Translator

A translator must be officially registered as one of the team officials as listed above.

That person is allowed to join the coach during a team time-out but could also be called by the officials to help with translations.

To be eligible to be registered as a translator / interpreter, that person must be able to communicate fluently in the language of the team (if not English) and also be able to translate that language to English.

Maintenance of Curling Stones during Competitions

- Any maintenance on the stones will only be done with World Curling approval during an event.
- The recommendation for maintenance after the start of a competition must come from the event Chief Ice Technician. Approval must then come from the World Curling Technical Delegate after consultation with the Chief Umpire.
- Maintenance work would only be done when there is a minimum of two days remaining in the round robin. This timing restriction is to ensure the stones are played for several games prior to the start of the playoffs.
- The maintenance work is done to return the stones to the condition they were in at the start of the competition. It is not intended to significantly alter the conditions for the athletes.
- Additional practice will not be organised after the stones have been maintained.
- The teams will always be informed when any maintenance work is done on the stones.

FOP access for Practice sessions and Coaches Delivering Stones

For any practices (Pre-Event, Pre-Game, Special Play-off practices, Training if a team has won a game by forfeit, Evening Practice or any other offered practices)

- Any 2 of the 3 accredited team officials are allowed in the Athlete Field of Play. The 3rd accredited team official is allowed to be in the Team Official Field of Play
- The 2 officials going into the Athlete FOP for these practices can change from practice to practice
- Coaches or other team officials are not allowed to deliver stones during any practice sessions at World Curling events

Delayed Last Stone Draw (LSD)

If for any reason, one or more sheets are delayed, and LSD stones cannot be delivered, after 60 seconds of delay the other sheet(s) where LSD stones can be delivered, will be allowed to do so.

Team Withdrawal (DNS)

If a team withdraws from a competition and it is too late to change the draw, the team they are to play get a bye. They can have a 30-minute practice starting at game time with one or both sets of stones to be confirmed by the Chief Umpire.

Mixed Doubles - Placing of stones

Each team is responsible for the placement of their stone. If either team delays the start of an end, their timeclock will be activated. If both teams delay the start of an end, the time clock of the team that must start the end will be started.

If a team is using their power-play, they must let their opponent know their decision at the end of the 60-second break time, or after 4 1/2 minutes of the mid-game break to allow the opponent to place their stone within the break. If there is a delay, the time-clock of the team calling the power-play will be started.

Spare stones for play-off games

At World Curling competitions, players are often given a choice of stone selection for the play-off games. On the official stone selection form, there is space for two reserve stones (except in Mixed Doubles).

In the rare situation, that a stone must be replaced during a game, the team would be given the option, to replace the paired set of stones if they would like to. If they decide that they only want to replace the unplayable stone, that is their final decision for that game.

Evening Practice

There is evening practice available for teams at the following events: WWCC, WMCC, WMDCC, WWhCC, WWhMDCC, ECC-A, PCCC-A, Pre-OQE, OQE, OWG, PWG only

Changing of a team member on the original line-up after the team-meeting

The rule clearly says: Any changes / additions must be declared by the end of the team meeting.

In the team meeting document, we also say: If a team must change a person on the coach bench (extenuating circumstances, i.e., sickness), the CU will consider the circumstances and their decision is final.

The following would be considered extenuating circumstances:

- Sickness or injury, normally for the rest of the event; but it is up to the CU to decide if a coach who can return is allowed back on the coaches bench
- Must leave the competition for home and will not return

A change cannot be made if it is clear, that the team official will return to the event after only one or two games. In that situation one of the other registered team officials must take over that position. If a coach must leave the event and is replaced by another coach, the accreditation of the leaving coach must be handed to the World Curling Technical Delegate so that an accreditation for the new official can be issued.

Technical Time-Outs

If a team requires a technical time-out due to an issue with personal equipment (e.g., brush, delivery stick in wheelchair curling, wheelchair, or any clothing), the technical time-out cannot last more than 5 minutes (10 minutes in wheelchair curling). After that time the game must resume. If a team cannot resume after the 5 minutes (10 minutes in wheelchair curling) have elapsed, they will forfeit the game.

If a technical time-out is caused due to an external force (e.g., power-failure, stone issues etc.), the Chief-Umpire will have the decision on how long the time-out will last for. Rule R13 will then be applied.

Medical Time-Outs

If a team needs to call for a medical time-out, the Chief Umpire will consult with the medical personnel and the affected team after 5 minutes. After that consultation, the Chief Umpire will decide how long the medical time-out will last. The maximum extra duration is 10 minutes (total of 15 minutes). The Chief Umpire will then consult with the ice-crew and informs the teams so that they can prepare for the recommencement.

Should the affected team not be able to re-join the game after 15 minutes (e.g., not enough players, no alternate), the team will forfeit the game.

Timing at World Curling events without time-clocks

Before the event, the Chief Umpire together with the Event Technical Delegate will share a document indicating a schedule, within what timeframe each end of a game should be completed.

That schedule includes extra time for measures, rulings etc. Should there be an extraordinary situation, the umpires will take that into account.

If a game is falling behind that schedule, the Umpires will first talk with both teams and ask them to speed up. From that point on, that game will be closely observed and if the game falls further behind schedule, then rule C6 (m) will be applied.

Rule C6 (m) states: If an umpire determines that a team is unnecessarily delaying a game, the umpire notifies the skip of the offending team and, after that notification, if the next stone to be delivered has not reached the tee line at the delivery end within 45 seconds, the stone is removed from play immediately.

We all know that some stones do need longer discussions. If the front-end of the team is ready in the hack when it is their time to deliver a stone, the game will not fall behind schedule even if the stones of the back end need some longer discussions.

If issuing warnings for single stones does not help that teams are playing within the timeframe allocated for a session, the Chief Umpire together with the Event Technical Delegate will decide on further actions.

Procedure

The umpire will issue a 45 second warning to the team member in charge of the house and at the same time start their stopwatch. If the stone is not delivered within 45 seconds, the stone will be removed from play.

The warning applies to that stone only. If the pace of play does not improve, further 45 second warnings will be issued as required.

Replacing Member Association(s) at World Curling events

Should a Member Association (MA) be unable to compete at a World Curling event, due to disciplinary sanctions, travel restrictions, etc. the MA will be replaced by the highest ranked team from the previously completed edition of a qualifying championship or lower division. If there is no completed qualification event, world ranking will be used:

ECC-A - the next highest MA from the previous ECC-B would be promoted

ECC-B - the next highest MA from the previous ECC-C would be promoted

ECC-C - open entry - play with fewer MAs

PCCC-A - the next highest MA from the previous PCCC-B would be promoted

PCCC-B - as long as there is no C-Division, play with fewer MAs

WWhBCC - open entry - play with fewer MAs

WWhCC - the next highest MA from the previous WWhBCC

WWhMDCC - open entry - play with fewer MAs

WMDQE - open entry - play with fewer MAs

WMDCC - the next highest MA from the previous WMDQE would be promoted

WJBCC - open entry - play with fewer MAs

WJCC - the next highest MA from the previous WJBCC

WJMDCC - open entry - play with fewer MAs

WWCC / WMCC - Depending on which region is affected, it would be the next highest MA from the previous ECC/PCCC

WSCC - open entry - play with fewer MAs

WMxCC - open entry - play with fewer MAs

Procedural Policies

- Players are allowed to depart from a competition after being eliminated. For events where a Per Diem or function tickets are provided, these will not be provided after a player has departed.
- Only medal winning teams are required on-ice for closing ceremonies.
- No speed traps are allowed for pre-game practice (only pre-event and evening practice).
- If coaches are working with more than one team at an event (e.g., Men's and Women's WSCC teams) and those teams play at the same time, a coach must declare which team he/she will coach in any one session (can change from session to session). If a person is designated as the Team Coach for more than one team at an event (e.g., Men's and Women's WSCC teams) that person is entitled to receive any medal won by the team(s).
- A team may change the athlete delivering an LSD stone up until the time of delivery even though they had designated a different athlete in CuCoS.
- A coach is entitled to use a mobile or tablet (with no network connection) during a timeout in place of a magnetic board.
- Games recorded by team support staff for technical review cannot be publicly distributed at any time due to World Curling broadcast rights.
- If a team quits the game before they have fulfilled the minimum number of required ends, the penalty or sanctions will be determined by the World Curling Board.
- If a team must forfeit a game because they don't have enough players (illness or injury), the remaining player(s) can still participate in the pre-game practice and delivery their LSD(s), as long as they have the minimum players on the ice as per World Curling rules.
- If, for the first game of a competition, a team does not have 4 players present: The players present can participate in the pre-game practice. They can deliver their LSD stones, provided they fulfil the minimum number of players who need to participate in the LSD stone(s).
If at the start of the first game the team then has the required number of players present, their LSD results will count as recorded.
If the team does not have the minimum number of players required to start the competition, they will, as per the rules, forfeit the game and their LSD results for that game will be changed to the maximum distance.

- During the LSD delivery, only the four players involved (two for Mixed Doubles) can be on the ice. The two (2) team officials and remaining player (where applicable) must be off the ice. No communication between the players on-ice and any team members off-ice is allowed during the LSD.
- A team with a bye may be allotted practice (30 minutes) at the start of the scheduled game time. The opponent of a team that forfeits a game may be allotted practice (30 minutes) once the forfeit is confirmed.
- If the CIT recommends that an additional ice-maintenance is required, the Technical Delegate after consulting with the CIT and CU will make the final decision. If the decision is taken that there is an ice-scape required after the start of the game, all players on the ice are allowed to throw one stone each in both directions, alternating with the opponent (the team not having Last Stone Current End (LSCE) throws first).
- A maximum of 2 of the 3 accredited team support staff (if there is more than 1) can be designated to sit in the Team Official Field of Play. The two designates can change from game to game.
- No tick-shot rule: If the stone is touching at least part of the centre line marking, it is considered on the centre line.

- A player that is intentionally burning a stone will receive an official warning by the umpires. If it happens a second time during the same competition, the player is removed from the event. The World Curling Board will then decide further sanctions.
- If a team is changing a player during a game, the player entering the game must be granted two practice slides in the break between ends.
